PROFESSIONAL SUMMARY

Senior UI/UX Designer and UI Developer with 7.5+ years designing enterprise, government, and citizen-facing platforms across HRMS, e-procurement, POS, travel booking, and public distribution systems. Known for translating complex, multi-stakeholder workflows into clear, consistent, and scalable interfaces — backed by reusable design systems and hands-on front-end development in HTML5, CSS3, Bootstrap, JavaScript, and Angular UI integration. Adopted AI-assisted design workflows (Figma AI, Copilot, Claude, Uizard) to speed up ideation, prototyping, and documentation. Comfortable working directly with product owners, business analysts, and developers to move from requirement to shipped interface.

CORE SKILLS

UI/UX: Information Architecture · User Flows · Interaction Design · Wireframing · Prototyping · High-Fidelity UI · Product Design · Responsive Design · Mobile UI Design · Usability · Accessibility

UI Development: HTML5 · CSS3 · Bootstrap · JavaScript · Angular UI Integration · Frontend Development · Responsive Web Design · WordPress

Design Systems: Reusable Components · Component Libraries · Design System Architecture · UI Patterns · Design Documentation · Visual Consistency

Tools & AI: Figma · Figma AI / Figma Make · Adobe XD · Photoshop · Zeplin · Git · Jira · AI-Assisted Design Tools

Analytics & Methods: Google Analytics · Digital Marketing · Agile · Scrum

PROFESSIONAL EXPERIENCE

Senior UI Developer & UI/UX Designer

OASYS Cybernetics Pvt Ltd | *Mar 2023 – Present*

- Designed and developed responsive interfaces across government, enterprise, HRMS, POS, travel, and e-commerce platforms serving high-volume citizen and business users.
- Translated business and workflow requirements into user flows, wireframes, high-fidelity interfaces, and responsive UI patterns.
- Designed data-heavy dashboards, complex multi-step forms, and operational workflows, prioritizing clarity for non-technical end users.
- Built and maintained a reusable component library adopted across multiple government and enterprise applications, improving design consistency and development speed.
- Partnered with product owners, business analysts, and development teams from requirement gathering through implementation and design QA.
- Integrated AI-assisted tools into the design workflow for ideation, prototyping, documentation, and front-end productivity.

UI/UX Designer & Digital Marketing Executive

Pothihai Constructions | *Feb 2022 – Jan 2023*

- Designed websites, landing pages, branding assets, and marketing creatives for a construction business.
- Created wireframes, prototypes, and high-fidelity UI designs from concept to launch.
- Supported digital marketing campaigns and ongoing website management.

Digital Operations & IT Support

Suresh Pet Bottle Scrap Company | *Jun 2019 – Jan 2022*

- Managed website maintenance, content updates, and day-to-day digital operations.
- Provided IT support, troubleshooting, and backup administration.

Website Developer

Yaabitech Software Solutions | Dec 2018 – May 2019

- Developed responsive websites using HTML5, CSS3, Bootstrap, and WordPress.
- Implemented mobile-friendly layouts and reusable UI components.

SELECTED PROJECTS

U.P. Excise Department Systems

UI/UX design and interface refinement across enterprise workflows, focused on information hierarchy, navigation, data-heavy interfaces, complex forms, and consistent interaction patterns for government operations staff.

Tamil Nadu Public Distribution System (TNPDS) — Public Portal

Redesigned service discovery and information architecture for a citizen-facing portal, improving content hierarchy, usability, and responsiveness for a broad, non-technical public user base.

OASYS Design System & Component Library

Designed and maintained a reusable design system adopted across multiple applications and modules, establishing consistent UI patterns and cutting redundant design and dev effort.

OASYS Portal (HRMS)

Designed attendance, leave management, payroll, approvals, employee self-service workflows, and reporting dashboards for enterprise HR operations.

PrimeTrip — Bus Booking Platform

Designed a responsive, mobile-first booking experience covering route search, seat selection, passenger workflows, and booking management.

UPPDS Government E-Procurement Platform

Redesigned a multi-stage e-procurement workflow — supplier onboarding through e-auction — to reduce navigation complexity for non-technical government users.

Co-Optex — Government Online Textile Platform

Designed product catalog, search, cart, checkout, and order management experiences for a government-run e-commerce platform.

OASYS Point of Sale (POS)

Designed billing, inventory, reporting, and operational workflow interfaces for retail point-of-sale operations.

AI-ASSISTED WORKFLOW

ChatGPT · Microsoft Copilot · Google Gemini · Claude · GitHub Copilot · Figma AI / Figma Make · Uizard · Adobe Firefly · Google Stitch · Prompt Engineering

EDUCATION

B.Sc. Computer Science — Bharathidasan College of Arts & Science, Erode | 2015 – 2018

KEY DESIGN AREAS

Enterprise Applications · Government Platforms · Citizen Portals · Data-Heavy Interfaces · Complex Forms · Design Systems · Responsive Web · E-commerce · Travel Booking · HRMS · POS · Product Design · UI Development · AI-Assisted Design · Analytics
